

LEGALEASE — SCALABILITY & FUTURE PLAN

CURRENT LIMITATIONS:

- Runs only on localhost
- Single-user (no accounts)
- Free tier rate limits (20 requests/day per model)
- English-only documents

SCALABILITY ROADMAP:

Phase 1 (Next 1 month):

- Deploy backend to Render/Railway (free tier)
- Deploy frontend to Streamlit Community Cloud
- Add multi-language support (Hindi, Tamil)

Phase 2 (3 months):

- User accounts with saved document history
- Digital signature integration (via DocuSign API)
- Template library for common document types

Phase 3 (6 months):

- Document analytics (reading time, clause frequency)
- AI clause suggestions based on industry
- Integration with legal databases (IndiaCode, SCC Online)

Phase 4 (1 year):

- Mobile app (React Native)
- Offline mode for sensitive documents

- Enterprise tier with bulk generation

MONETIZATION (optional):

- Free tier: 5 documents/month
- Pro tier: Rs. 299/month for unlimited
- Enterprise: Custom pricing for bulk + API access

TECHNICAL SCALABILITY:

- FastAPI can handle 1000+ concurrent requests with Gunicorn + Uvicorn workers
- Streamlit Cloud supports auto-scaling
- Gemini API scales automatically
- No database bottleneck (stateless backend)
